IndustriALL Global Union stands in solidarity with Pan Hellenic Energy Federation

Dear Sisters and Brothers,

I write to you on behalf of [IndustriALL Global Union](http://www.industriall-union.org), which represents more than fifty million workers in mining, energy and manufacturing industries in 140 countries worldwide, to express our full support and solidarity with you in your struggle against the privatization of the energy companies, and the exploitation of mineral resources by multinational companies at the detriment of the people of Greece.

IndustriALL Global Union fully supports your call demanding that the government stop permanently any plans to sell public-owned companies in the energy sector, including Hellenic Petroleum, Public Power Corporation (PPC), National Natural Gas System Operator (DESFA), and the Public Gas Corporation (DEPA), as well as mineral resources. Furthermore, we support your demand, which calls on the government to undertake the productive reconstruction of the country, in full consultation with workers and unions, and paying particular attention to those companies that could make a significant contribution towards achieving this goal.

IndustriALL Global Union stands shoulder to shoulder with the Panhellenic Energy Federation and all Greek workers in fighting against the privatization of the public-owned energy companies, and the exploitation of the country's mineral resources for the exclusive benefit of multinational companies.

In solidarity,

Valter Sanches
General Secretary
