### ANNOUNCEMENT-SOLIDARITY

The Pan-Hellenic Energy Federation expresses its solidarity and stands beside the workers of the French Syndicates which give the last 2 months a magnificent struggle against the raise of the age limits for the pensions.

The French workers united do not accept to talk about anything else unless the immediate solution is found by maintaining the 62 years in pensions.

The struggles in France, In Britain, in Germany, In Denmark, In Italy, in Portugal prove that with organization, collectivity and agility, the workers will impose their right and they will prove that there are no "saviors".

The same is confirmed by our own major strike actions that took place in Greece for the tragic crime in Tempi.

It is clear now that the workers united, can turn everything upside down, we work less to live longer.
